

CUADERNILLO DESCOMPOSICIÓN NUMÉRICA Y VALOR POSICIONAL

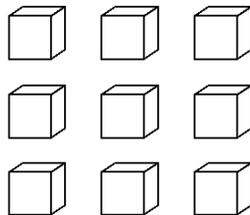

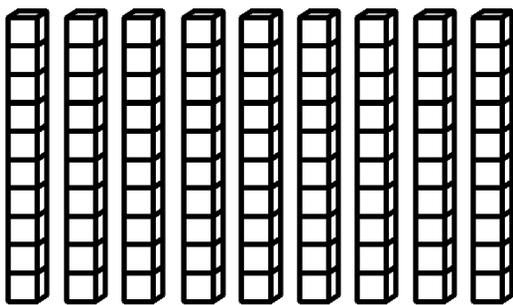

Colorea teniendo en cuenta que las barras representan las decenas y los cubos las unidades:

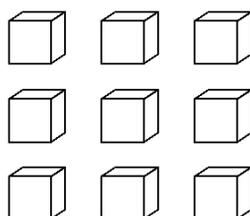

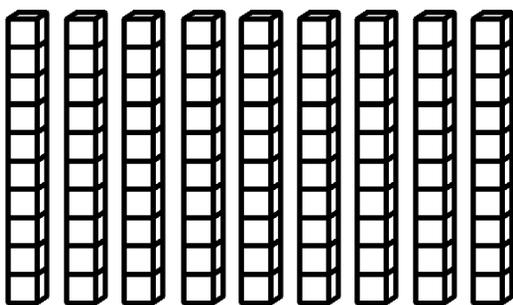

65

53

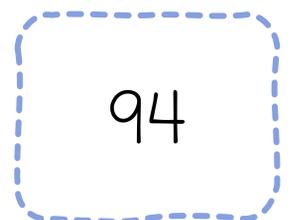

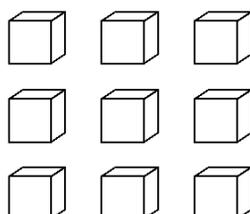

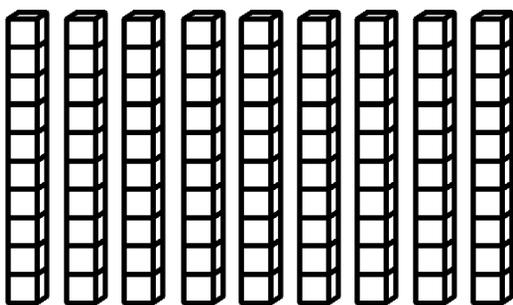

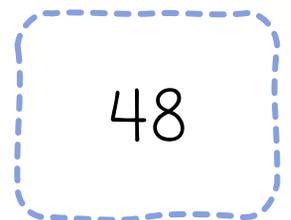

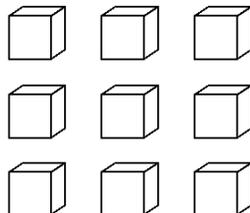

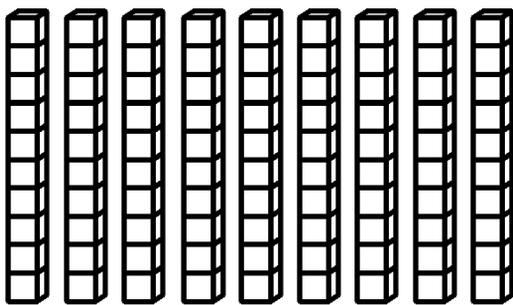

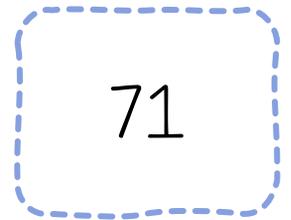

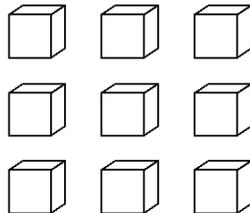

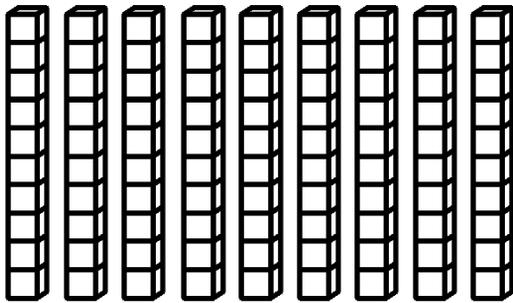

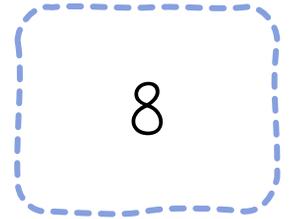

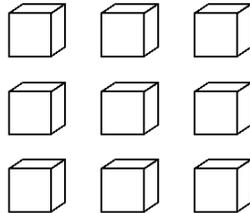

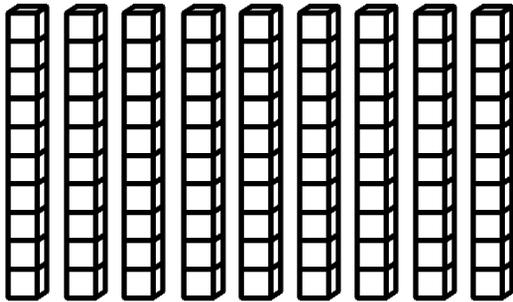

29

10

Colorea teniendo en cuenta que las barras representan las decenas y los cubos las unidades:

Colorea para representar el número. Fíjate en el ejemplo.

Centenas

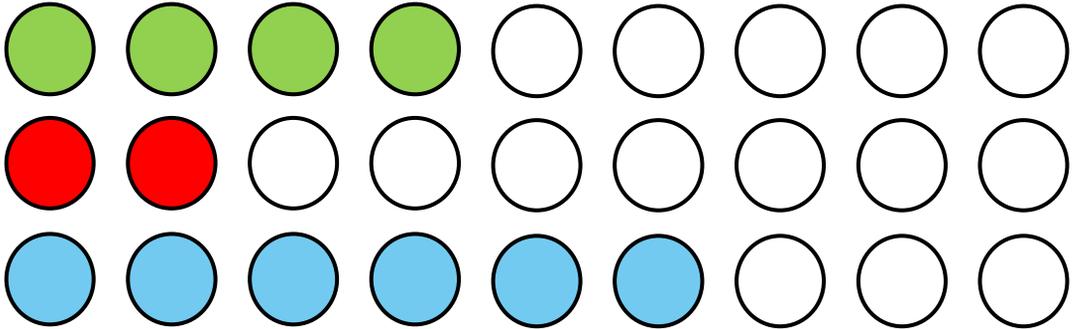

Decenas

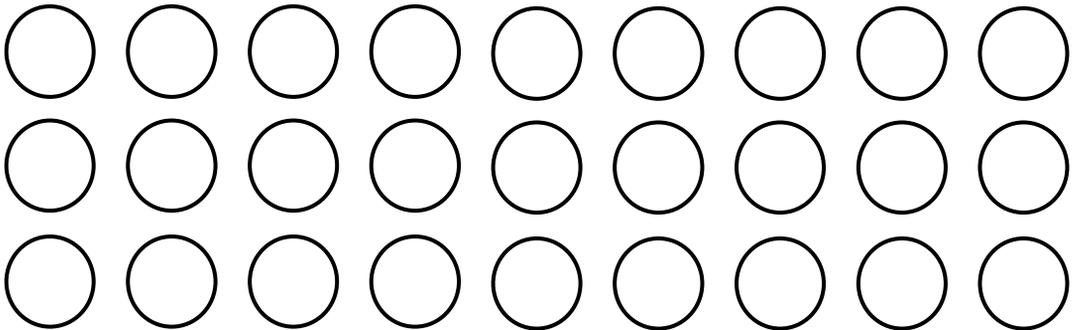

Unidades

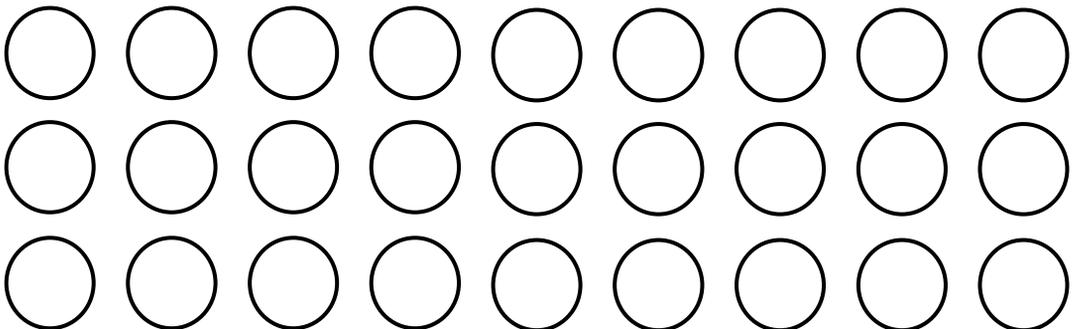

426

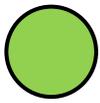

358

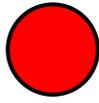

741

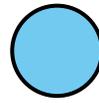

Colorea para representar el número. Fíjate en el ejemplo.

Centenas

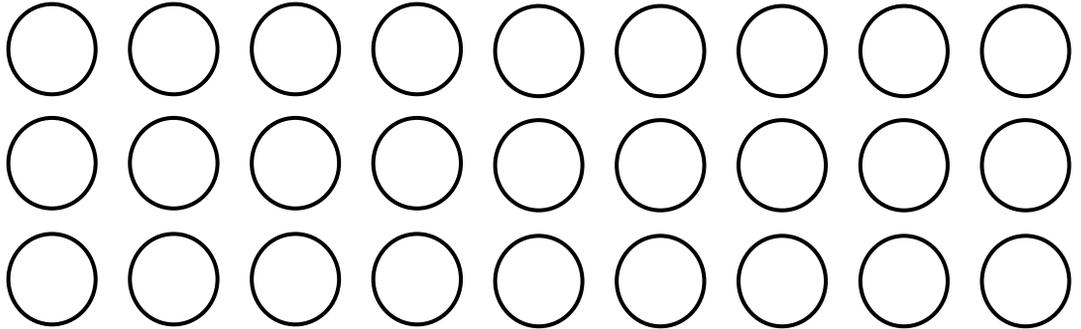

Decenas

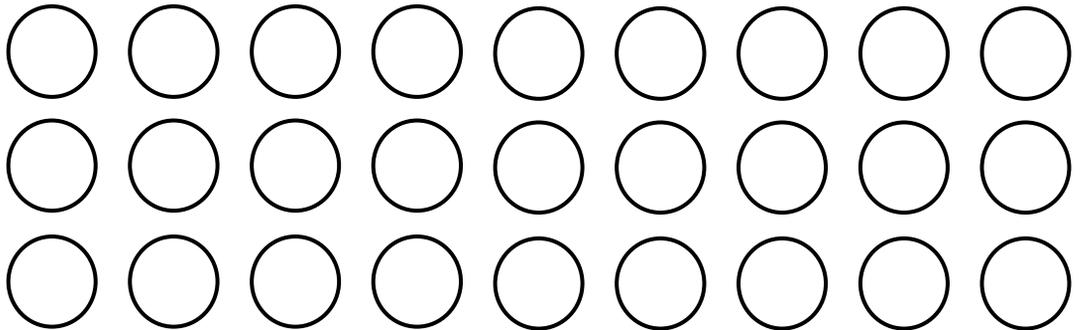

Unidades

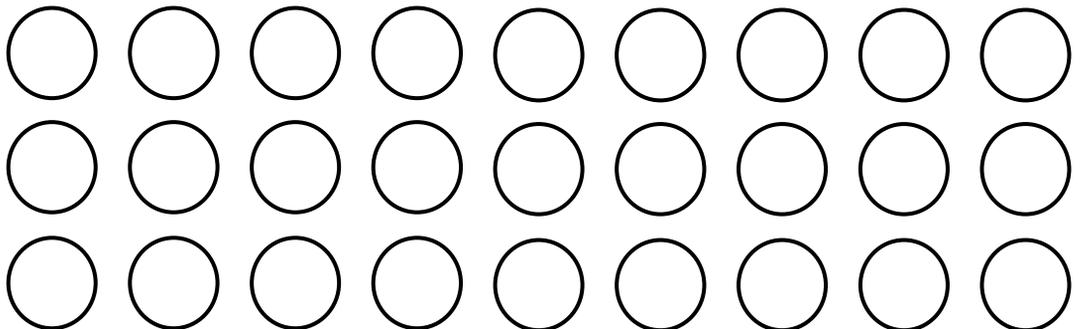

173

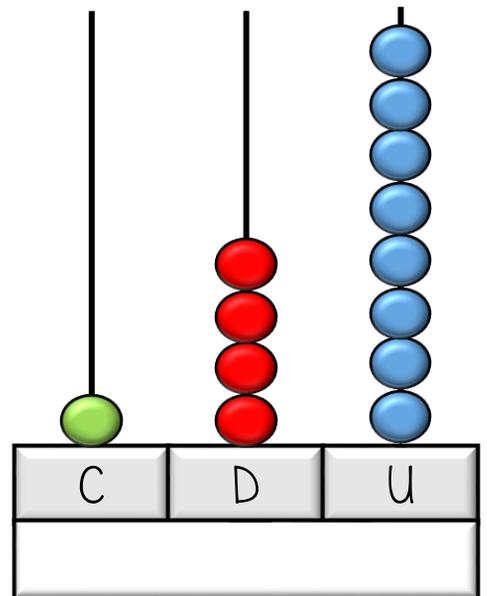

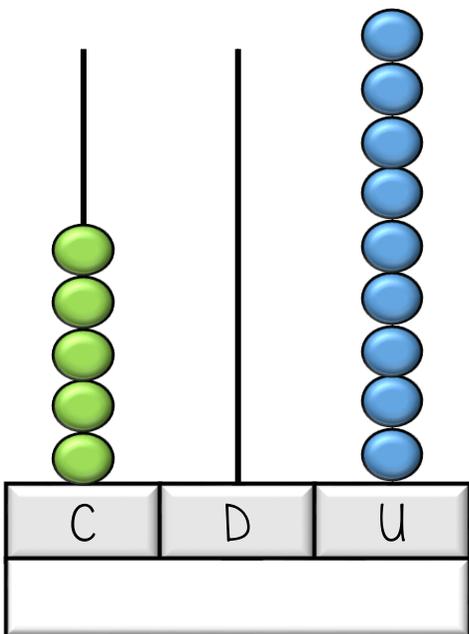

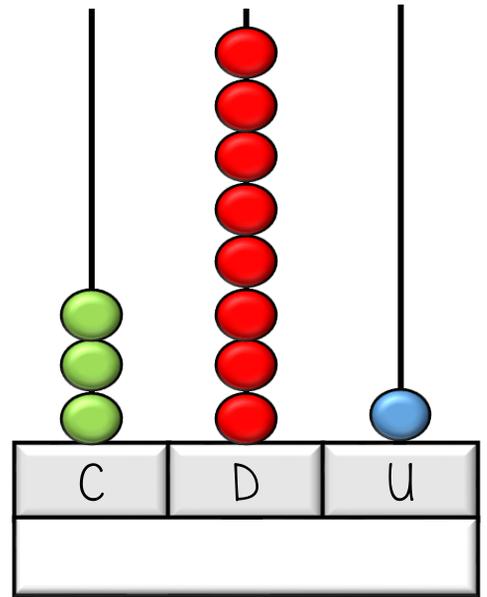

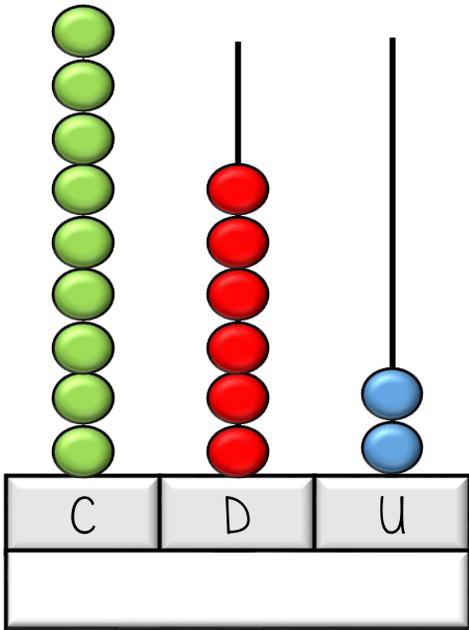

265

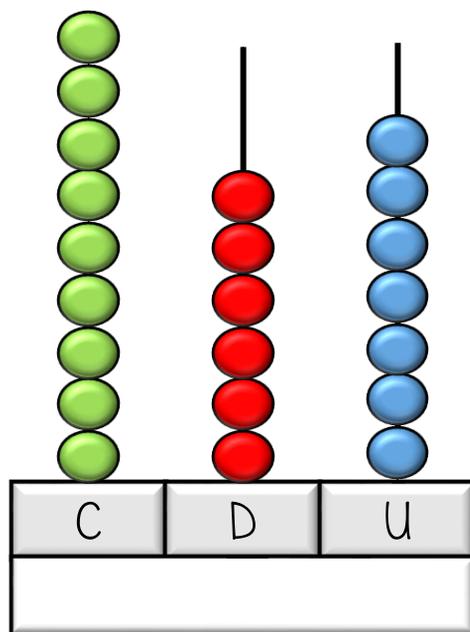

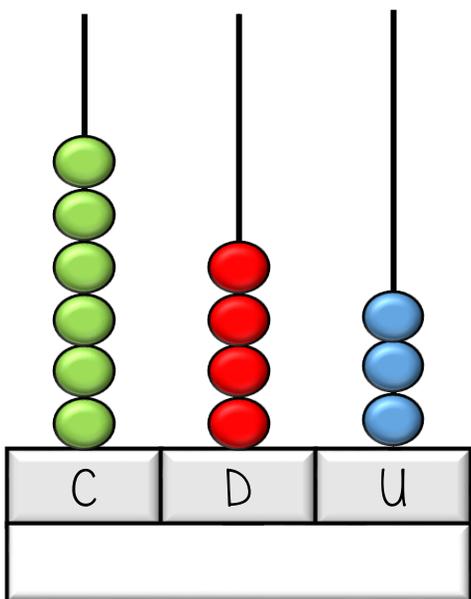

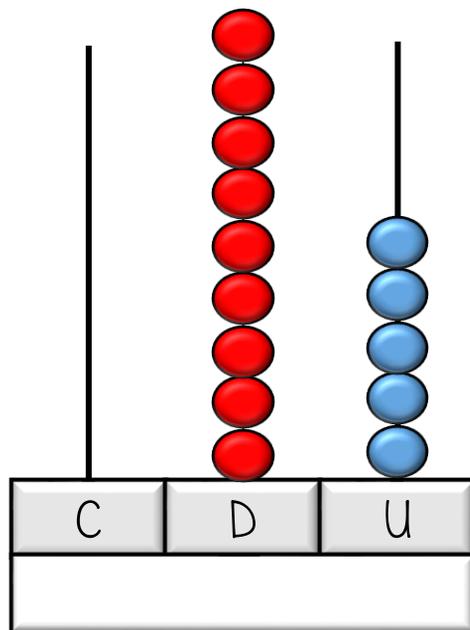

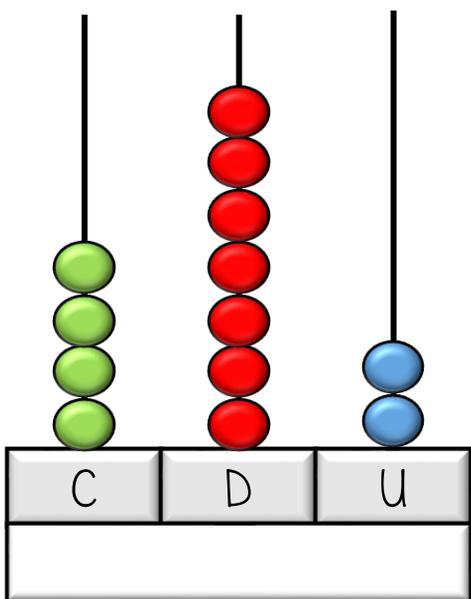

849

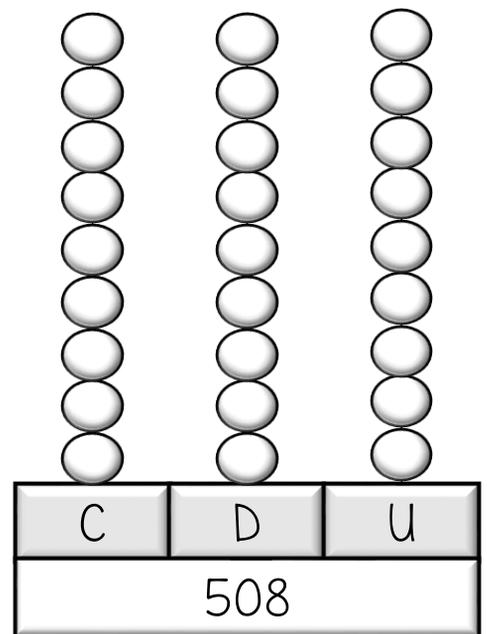

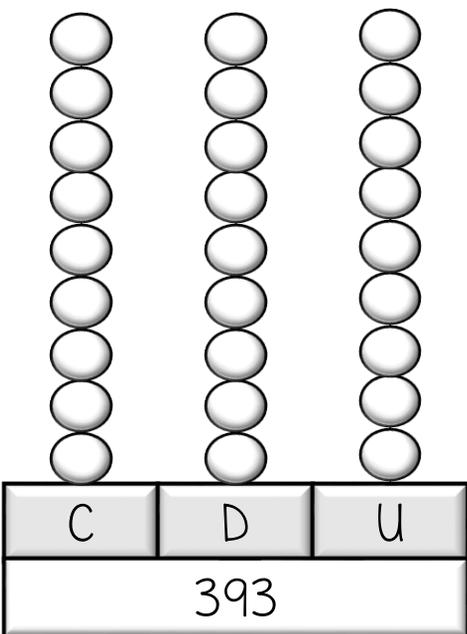

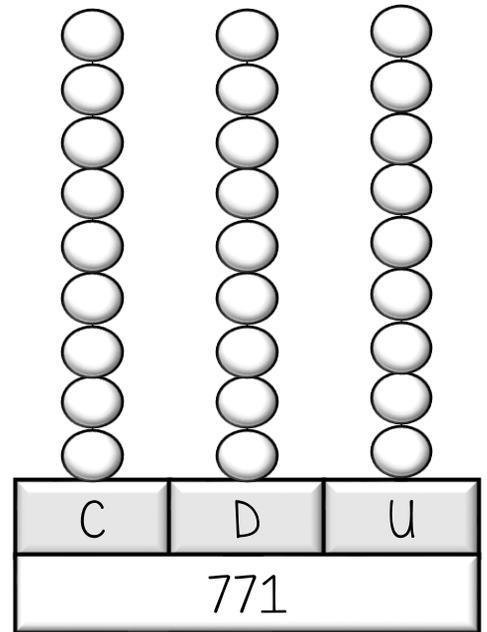

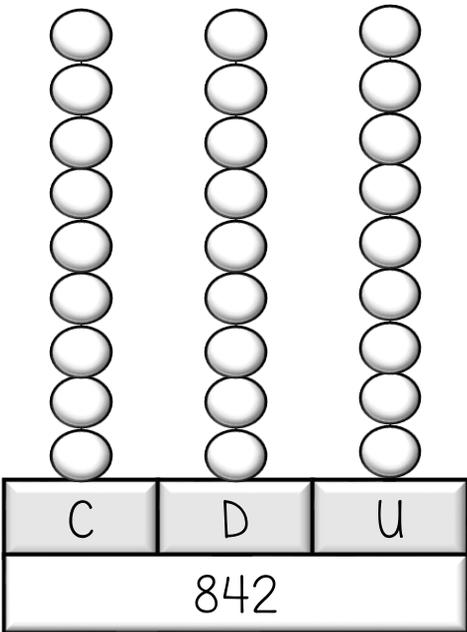

Escribe con cifras el número representado en el ábaco:

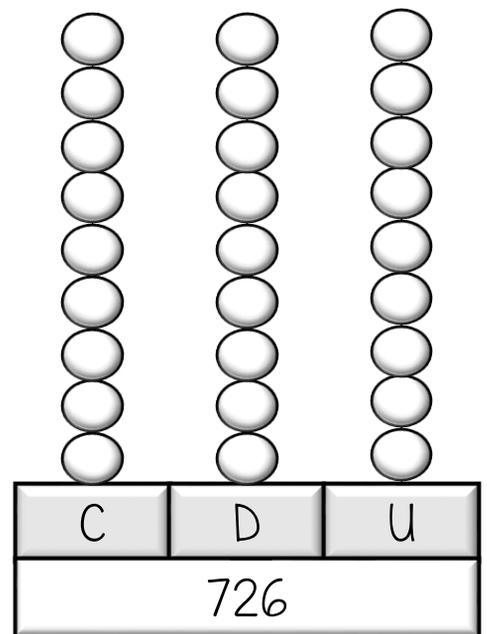

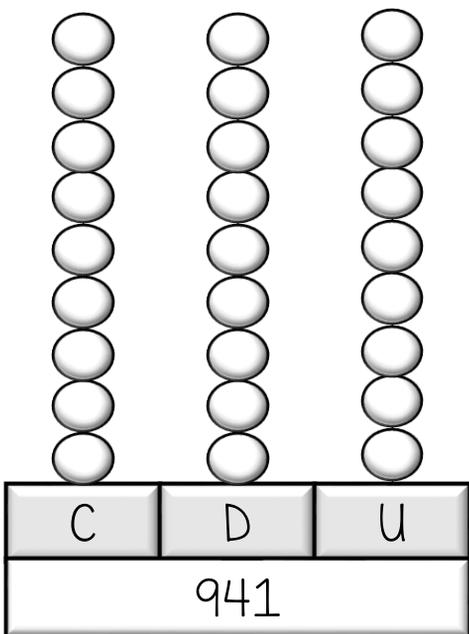

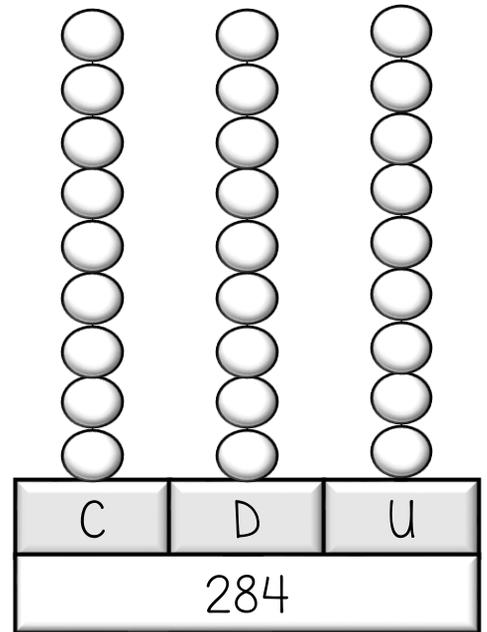

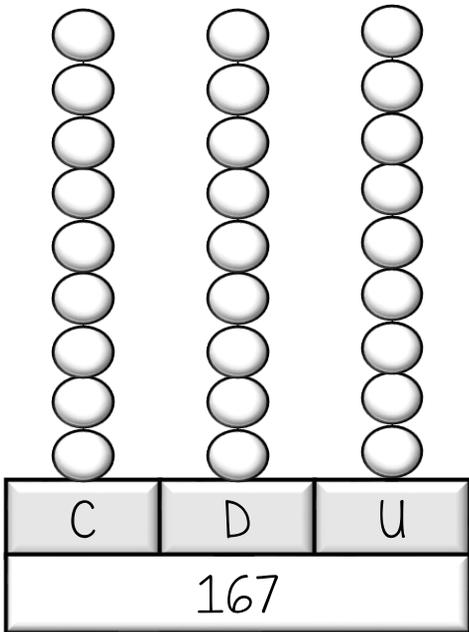

Escribe con cifras el número representado en el ábaco:

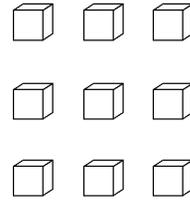

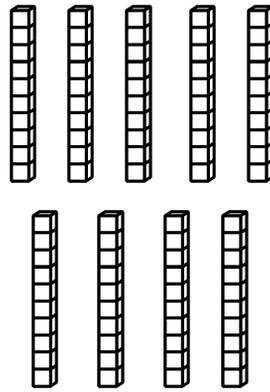

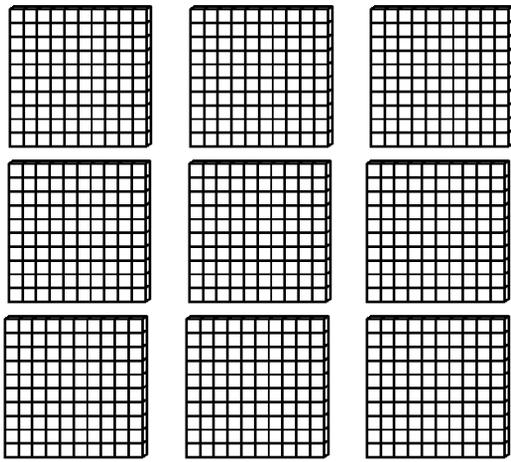

Colorea y representa en el ábaco los siguientes números:

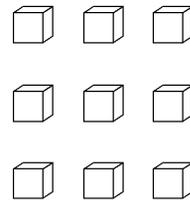

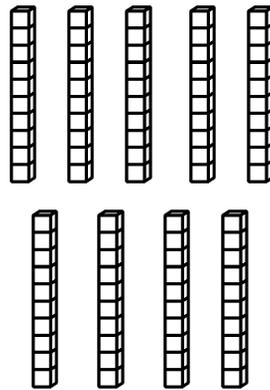

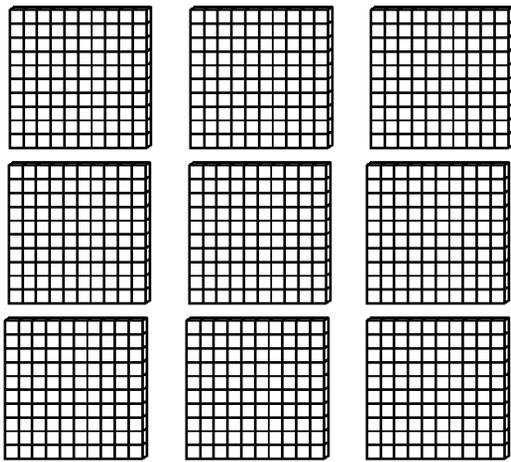

Colorea y representa en el ábaco los siguientes números:

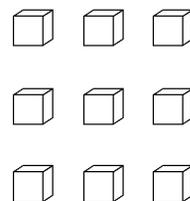

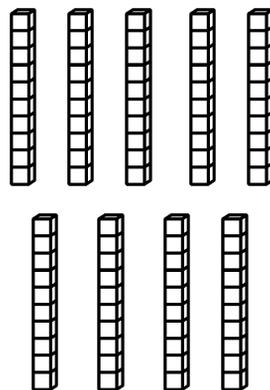

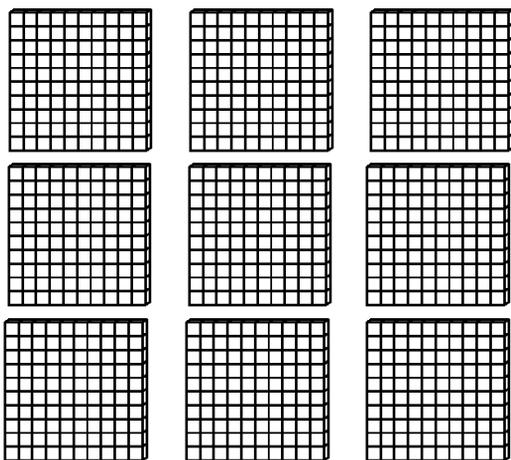

Colorea teniendo en cuenta que las placas representan las centenas, las barras decenas y los cubos las unidades:

72

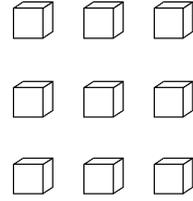

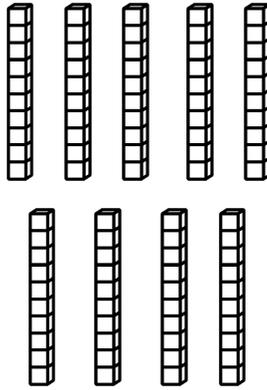

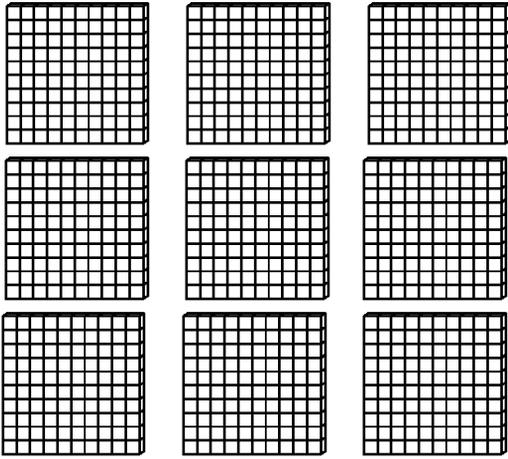

617

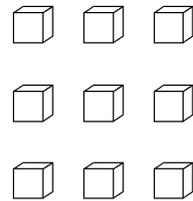

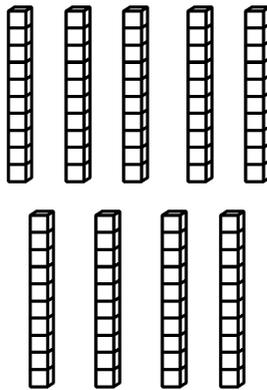

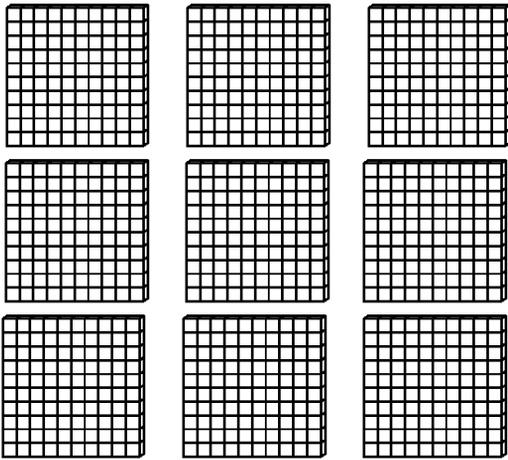

924

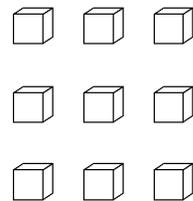

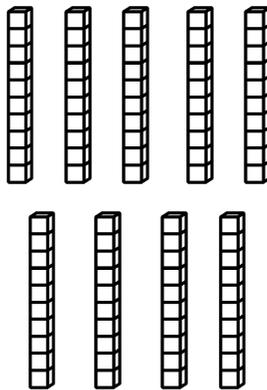

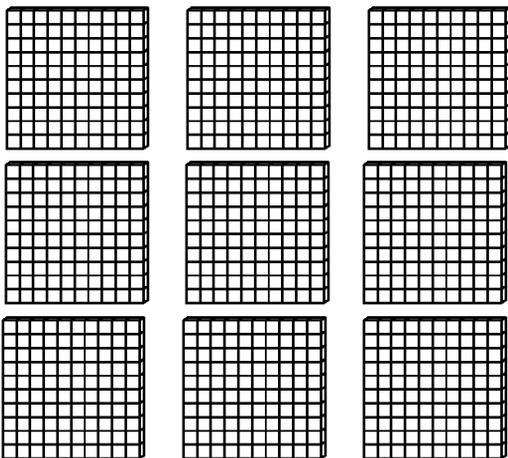

Colorea teniendo en cuenta que las placas representan las centenas, las barras decenas y los cubos las unidades:

186

291

735

- Completa:

352.641

CM	DM	UM	C	D	U
